Project Name	GeminiDecode: Multilanguage Document Extraction by Gemini Pro
Maximum Marks	3 Marks

Define Problem Statements:

The document extraction process poses significant challenges for users, affecting their efficiency and overall satisfaction as there is always the matter of time consumed and the language barrier in case of international users. They will generally see issues such as inaccurate text extraction and difficulty handling diverse file formats. These challenges can be time consuming and degrades efficiency and ease of access of documents. To improve user experience, we aim to address these problems and create robust solutions through an accurate, user-friendly application that meets the requirements.

I am	I'm trying to	But	Because	Which makes me feel
A lawyer	Summarize a German legal document from my client	I'm unable to decode it	I don't know German	Unsure on what to do
A doctor	Access my patient's medical records available only in Spanish	I can't read it	I can't understand Spanish	Stymied on how to proceed
An investment banker	Summarize my client's financial statements	I can't complete my task	It is in Russian, and I don't know the language	Stumped on what to do
